OTHER COMMENTS*****

It is proposed that this right will be used to irrigate farmland in the Leota Bench and Pelican Lake area of Uintah County. There is a potential of 10,850 acres that can be cultivated and there are 8,890 acres already being irrigated that could use supplemental water. The water will be pumped directly from the Green River into sprinkler irrigation systems yet to be constructed.

Applications were made to consolidate water and irrigated acreage back to this water right. Some of the consolidation applications were made for the entire amount of water and irrigated acreage from segregated water rights. Some of the consolidated applications were for portions of segregated water rights.

A consolidation application from Water Right Number 43-11053 to this water right was filed. This consolidation application transferred 482.65 acre-feet of water and 120.6625 acres. WR No. 43-11053 was originally segregated from WR No. 41-3487.

An application to consolidate a portion of this water right was made to transfer 19.8 acre-feet of water and 4.95 acres to WR No. 49-2307 (A30414dox). This consolidation augmented the segregation from this water right that created WR No. 49-2307.

As of December 3, 2013, the priority date and/or filing date have administratively changed to reflect that of the original right.
